

**Hoofddorp, the Netherlands, October 3, 2017**  
Valencia's Faculty of Physical Activity and Sport Sciences has chosen solutions from Vivitek for its audiovisual equipment refresh.

## VALENCIA'S FACULTY OF PHYSICAL ACTIVITY AND SPORT SCIENCES SELECTS VIVITEK FOR ITS AUDIOVISUAL EQUIPMENT REFRESH

Ease of installation, an excellent price/performance ratio, reliability and extensive warranty were just some of the criteria that Sound & Systems, the authorized partner selected to perform the installation, presented as its reasons for choosing Vivitek projectors at the Faculty.

To upgrade and modernise the audiovisual equipment, they installed Vivitek's DW832 WXGA 5000-lumen projectors and large-size projection screens, both distributed by Charmex. The projectors are ideally suited to classrooms and medium-sized spaces.

The projectors offer numerous connectivity features and high luminosity, making them suitable for all types of environments. The systems were connected over a UTP cable network to the signal transmission and reception devices via a conversion. With the system installed as it is, the classroom now enjoys excellent connectivity for all types of video signal and is able to displaying high quality content in great detail.

The Vivitek DW832 projector provides high-quality digital images thanks to its high luminosity (5000 ANSI lumen)

and 15,000:1 contrast ratio. With its native WXGA resolution, the model is designed for a wide range of applications. Its compact format, light weight (only 3.2 kg) and flexible zoom capability of 1.5x, allow it to be easily carried from one classroom to another. The DW832 is equipped with an HDMI/MHL port and other connector types so all types of multimedia application can be used to the full.

Sound & Systems Audiovisuales, S.L, has considerable experience of the audiovisual market. It offers its customers a complete, personalized service that is both efficient and fast, providing added value to the products and services that it sells, with an emphasis on quality. This approach has led to it receiving numerous awards in the region. Over the last few years, Sound & Systems has installed more than 400 Vivitek devices in Spain; in businesses, educational establishments, museums and audiovisual equipment rental companies.

## About Vivitek

**Vivitek, a brand of Delta**, offers an extensive line of visual display and presentation products. **Vivitek's** line of digital projection and display products incorporates the latest innovations and technologies to meet the market demands for education, business, home theater and large venue.
